

麻疹、腮腺炎、德國麻疹混合疫苗 (MMR) 接種資訊

一、接種費用

項目	費用
(一) 掛號費	80 元
(二) MMR 疫苗 (1 劑)	600 元
費用總計	680 元

二、麻疹腮腺炎德國麻疹混合疫苗 (MMR) 接種禁忌

- 先前接種本疫苗或對本疫苗任何成分曾發生嚴重過敏反應者。
- 孕婦。
- 已知患有嚴重免疫缺失者 (包括嚴重免疫不全的愛滋病毒陽性個案、先天性免疫缺失症與白血病、淋巴瘤等惡性腫瘤病人或接受化療、免疫抑制藥物治療及高劑量類固醇者)。

三、麻疹腮腺炎德國麻疹混合疫苗 (MMR) 接種注意事項

- 發燒或正患有急性中重度疾病者，宜待病情穩定後再接種。
- 最近曾輸血或接受其他血液製劑者 (如免疫球蛋白)，應詢問原診治醫師何時可接種 MMR。
- 曾有血小板低下症或血小板缺乏紫斑症的疾病史者，宜請醫師評估。
- 接受結核菌素測驗者，如未於接種前或接種當天接受測驗，應於接種一個月後再進行測驗。
- 女性接種後 4 週內應避免懷孕。但疫苗施打後 4 週內發現懷孕，不應被視為中止懷孕之適應症。
- 已知對「蛋」之蛋白質有嚴重過敏者，可在門 / 住診由熟悉處理過敏症狀之醫事人員提供接種，並於接種後留觀 30 分鐘。

四、診斷證明 (接種證明) 申請費用

項目	費用
中文診斷證明 / 接種證明 (第一份)	100 元
英文診斷證明 / 接種證明 (第一份)	500 元
第二份起，每份	50 元

Measles, Mumps and Rubella (MMR) Vaccination Information

1. Vaccination Fee

Item	Fee
Registration fee	NT\$80
MMR vaccine (1 dose)	NT\$600
Total	NT\$680

2. Contraindications for MMR Vaccination

- A history of a severe allergic reaction to a previous dose of MMR vaccine or to any component of the vaccine.
- Pregnancy.
- Severe immunodeficiency, including people with severe HIV-related immunodeficiency, congenital immunodeficiency, leukemia or lymphoma, or those receiving chemotherapy, immunosuppressive therapy, or high-dose corticosteroids.

3. Precautions for MMR Vaccination

- People with a fever or an acute moderate-to-severe illness should wait until their condition has stabilized before vaccination.
- If you have recently received a blood transfusion or blood products (such as immunoglobulin), please consult your physician about when you can receive the MMR vaccine.
- People with a history of thrombocytopenia or thrombocytopenic purpura should be evaluated by a physician before vaccination.
- If you need a tuberculin skin test, and the test was not performed before or on the day of MMR vaccination, it should be performed one month after vaccination.
- Women should avoid becoming pregnant for 4 weeks after vaccination. However, pregnancy occurring within 4 weeks after vaccination is not an indication for termination of pregnancy.
- People with a known severe allergy to egg proteins may receive the vaccine under the supervision of medical personnel experienced in managing allergic reactions, and should be observed for 30 minutes after vaccination.
